

PVR - PERSONAL VIDEO RECORDER

TiVo®

Enjoy the Convenience and Resolution of a Personal Video Recorder for Better Quality Sound and Picture than VCR, but Only when Hooked-Up Properly.

WHAT YOU MAY NOT KNOW

By recording on hard disk, TiVo® personal video recorders (PVR) offer better resolution and sound than even the best of VCRs. Currently PVR's are non-high definition, so S-Video is the highest quality connection available.

Although not Dolby Digital® capable, the analog audio connections provide high quality sound.

Some combined PVR satellite systems, will also require telephone line connections and antenna inputs.

CABLES NOT INCLUDED

Component Video • S-Video • Audio Cables

MONSTER RECOMMENDS:

Monster S-Video cables will provide the best picture quality and Monster Interlink® audio cables will provide the best audio quality.

Tip: TiVo® use phone lines to connect to their services. All lines must be protected with Monster PowerCenters™

HIGHEST PERFORMANCE HOOK-UP:
